Fresh Ranch Butter trom the ranch of . White atWolcott's Cash Store.

Some persons who have been so unrelenting in their abuse of the powers which created the act which tied up that hill it rained on his hind wheel, the county funds are now turning while the front wheel ran slong in the their attention to the powers which untied them. Every county in the Territory which was affected similarly to Cochise, used its influence and the silk cloth under his shirt-front. When county's credit to aid the passage of unbraided and combed out, it not only the bill and under which the warrants are now being drawn and money paid The total cost to Cochise was \$450 be rd is the result of twelve years' The amount of money turned out of growth. the treasury vaults during the past three days was about \$25,000 which was honestly owed to the citizens of handsome gold finger ring with a large the county. Under the bill, sixteen green stone setting." On the scal was thousand dollars of last years warrants engraved a Mexican coat of arms, and have been paid, stopping the inter- Hunt and a Mexican cipher, and dated, est which would have amounted to \$1600 at the end of a year had they not been taken up. Ten thousand dollars worth of bills owed to the merchants and others, have been paid, which had it not been for bill 18, which cost \$450 of the people's money to enact, would not have been paid until our courts had decided the legality of paying them at an expence to the people of twice \$450. County warrants before the passage of bill 18, were not worth 80 cents on the dollar, today you can get their face value for them without trying. If \$450 was too much to pay for these benefits, then indeed are the people hard to please.

THE PROSPECTOR is informed that the bill recently enacted providing that a grand jury shall consist of not less than 16 and not more than 22 members, effectually settles the lost law on the same subject as far as future grand straw like a flerce tiny terrier. juries are concerned and that the occupants of the county jail are no waiting for the supreme court to decide the question, but for the judge to open court.

For Sale.

Also Flowering Shrubs and Greenhouse Plants of all kinds for sale at the old place, corner Fulton and Second streets, Tomb stone, Arizona, by WILLIAM BRAUCH.

STRANGE IF TRUE.

A BROOKLYN writer says that among the curious apparitions that people saw in traveling along Bedford avenue last down the street on a bicycle. Yet they claim that the heathen are slow to adopt

the ways of civilization. In cutting a big cypress tree near As tor, Fla., a living alligator seven feet long was found therein. As the opening in the tree was not half large enough for the gator to get through, the presumption is that it crawled in when quite young and lived on other animals and reptfles that sought refuge there.

A "snor social" is one of the amuse ments of Rich Hill, Mo. All the girls go behind a screen and stick the toes of their shoes out underneath its lower edge. The young men may select their partners by chalking their initials on the tempting shoes. At a recent party some of the boys charged that their best

girls gave other boys tips on toes. A BICYCLIST, whose identity concerns no one, was riding his wheel through a portion of France when up came a storm of rain. The storm struck him just a he started to coast down a nicely graded hill some five miles long. He proceeded on his journey and all the way down

JAMES KEITH, of Caldwell, Tex., bar reaches the floor, but sweeps back nearly two feet. It is a little more than

A CHATTANOOGA lawyer has peculiar views of the duties of policemen. He wrote to Cincinnati fer information about his missing son. He wants the police-man that finds him to obtain for him a situation in some lawyer's office, the boy being a good stenographer. The salary must not be less than tendollars a week. More than that the officer is to see that the boy pays his board and be-haves himself, and is then to report the

lad's progress to his father. An omnibus driver one day found a little rat in the hayloft. As it was a piebald color he spared its life and took it home. In course of time it grew quite tame, and became a great friend of his children. At night it used to lie on the rug before the fire, and when the fire went out it crept into its master's bed The driver taught it to obey him, and at the word of order it would jump into his topcoat pocket, and stay with him all day. Occasionally its owner placed it in the boot of the omnibus to watch his dinner, and if any one dared touch the food, it would fly at him out of the

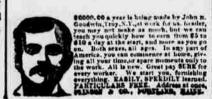

THE five New England States have built, so far this year, sixteen miles of ailroad. North Carolina has built 226. THE railways of the fourteen Central and South American States now aggregate only 13,091 miles, or about 3,000 miles more than the mileage of the single State of Illinois.

HUNDREDS of millions, probably billions, of dollars have been added to the value of real estate in the cities of the world by a single invention-the elevator, or lift.—Inventive Age.

In the six New England States 2,658, 000 persons have \$592,000,000 in the savings-banks. In the States of New York, New Jersey and Pennsylvania there is \$668,000,000 to the credit of persons whose deposits average but \$323. This large sum of \$1,250,000,000 is owned by men and women whose average sav ings amount to less than \$400.

LAST year Philadelphia built 11,965 houses, averaging in cost \$2.172 each. In the same time New York built 6,732 houses, the average cost of which was \$11,298 each; Chicago, 4,931, averaging \$5,083; Brooklyn, 4.500, averaging 85,706; Boston, 4,4-1, averaging \$7,312; Minneapolis, 4,355, average 82,006; Washington, 4,048, averaging \$1,523; Denver, 2,741, averaging \$3,942; Omaha, 2,498,

averaging \$1,083. MONSIEUR EIFFEL has invented a form of bridge, capable of being used cither '7 times of peace or war, for temporary Linly a great improvement on the wooden pontoons and structures now employed by engineers. It is composed wholly of pieces of steel, which can be easily put together and can be erected without machinery, and by unskilled labor. M. Eiffel made a test bridge in less than seventy hours, one hundred and forty-seven feet long, weighing in all eighty-six tons, and capable of bearin, a burden of over two bundred tons In fact it could carry a railway train with troops, or with military stores or e erchandiso.

SUMMONS.

Sunday afternoon was a Chinaman in store clothes and eyeglasses riding cial District of the Territory of Arizona, in and for the County of Co-

chise. Action brought in the District Court of the first judicial district of the Ter-ritory of Arizona, County of Cochise, and the complaint filed in said County of Cochise in the office of the cierk of said district court. HENRY HENDERSON,

MOLLIE HENDERSON.

Defendant.
